S1 warm-up permanent

Test sequence

time: minutes

operation time: 360 min

measuring interval: 1 sec

start up time: 3.0 sec

acceleration with load: NO

load: speed

start speed: 1480 rpm

cur.limit/torque: 4.000 Nm

control

Set point control: YES

Control all: 500 ms

Delay control start: 0.0 sec

constant mode: torque

controlled value: 2.00 Nm

Increase of load: absolut

Increasing load of: 0.00 Nm

stop at stability: NO

duration stability: 1 min

temp. stability: 0 °K

R-measuring: manual
